

What do you enjoy most about your Design and Technology Lessons?

I like the day we finish making our design because we can play with the model, we did this for our Trojan Horse.

Benny - Y6

Olumide - Y5

I enjoy the design stage because I like creating and drawing.

Alexander - Y3

I like to use lots of different materials. If we have lots, we can make different things

We get to make things when we have planned them.

I like it when we are cooking.

Logan - Y2

Describe your favourite
Design and Technology
Lesson?

I really enjoyed making the box as a frame for my set of cams. It was a challenge and good fun.

Olumide - Y5

Benny - Y6

I liked creating the model of the Trojan Horse, we had to be careful cutting out the parts and putting them together so that it worked.

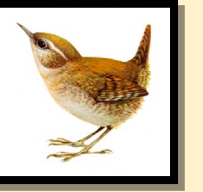

Alexander - Y3

I like cooking lessons, then I can help my mum at home. We make the best pasta.

When we were learning about the Great Fire of London, we designed our own bakers hat, and then made it. We then became bakers and made bread. We followed a recipe - we made 2 different ones - one with raisins and one plain. I didn't like the one with raisins, but some of my friends did. We had to say which one we liked.

Logan - Y2

How do you think Design and Technology lessons could be improved at Wren's Nest Primary School?

I like all our lessons but maybe more lessons on designing because that is what I enjoy most.

James - Y4

Olumide - Y5

Nothing.
Maybe more cooking time.

Alexander - Y3

I would like to cook in every lesson because it is so good.

Nothing.
I like the lessons.

Logan - Y2
