

# What do you enjoy most about your Design and Technology Lessons?

I like it when we talk about planning and creating our own designs. It is good to see it after we have made it to see if it turned out to be how we thought it would.

Lola - Y6

James - Y3

I like to design and make lots of things. I like to think about what I am going to make first with my friend.

Alexander - Y2

We do lots of things. Once we designed a monkey. The teacher helped us to cut out a monkey and we had to put fur on it with glue. We had to be careful. I chose googly eyes for mine.

We get to make things when we have planned them.

I like it when we are cooking.

# Describe your favourite Design and Technology Lesson?

It was a lesson about temples. I created a design based on one of the Greek Gods. I matched the colour scheme to Greek tradition we had learned about. We are allowed to show freedom in our own designs. It is good to see progression in your own work.

I liked it in Year 2 when we made bread. We planned what to do, step by step, and then made it. We got to taste it. Mine tasted good.

Alexander - Y2

My favourite lesson was when I designed a flag.

We had a plastic stick for the stick to hold it. We designed and painted it.

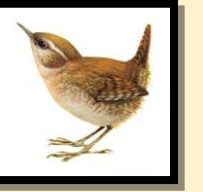

My stick wouldn't hold it so I had to add more glue and tape to make it work.

It worked in the end.

When we were learning about the Great Fire of London, we designed our own bakers hat, and then made it. We then became bakers and made bread. We followed a recipe - we made 2 different ones - one with raisins and one plain. I didn't like the one with raisins, but some of my friends did. We had to say which one we liked.

Kylah - Y1

How do you think Design and Technology lessons could be improved at Wren's Nest Primary School?

I would like even more DT lessons.  
I love Art and Design – I am good at it.

James – Y3

Lola – Y6

Nothing.  
Maybe more cooking time.

Alexander – Y2

We could make a flower card.

I would cut it out and then use beautiful flower colours to colour it.

Nothing.  
I like the lessons.
