## For the attention of ALL YEAR 1 Parents and Carers

Wednesday 6<sup>th</sup> January 2021

Dear Parents, Carers, Families and Children,

Following a telephone call with you today regarding your child, please find below information from the Department of Education (DFE) regarding the next steps following a confirmed case of COVID 19 of a child in your child's teaching bubble.

Having spoken to the DFE, they asked me to contact you and advise you to self-isolate.

We have followed the national guidance and have identified that your child has been in close contact. In line with the national guidance your child must stay at home and self-isolate until **Thursday 14<sup>th</sup> January 2021**. If they do not develop symptoms, they are able to return to normal activities on Friday 15<sup>th</sup> January 2021.

Other members of your household can continue normal activities provided your child does not develop symptoms within the 10 day self-isolation period.

Please see the link to: Guidance for contacts of people with confirmed coronavirus (COVID-19) infection who do not live with the person

<https://www.gov.uk/government/publications/guidance-for-contacts-of-people-with-possible-or-confirmed-coronavirus-covid-19-infection-who-do-not-live-with-the-person>

As always, if you have any questions or worries, please contact us. We are here for you.

In the meantime, we will be offering our online education provision and home learning support. Please visit the website to access this, simply by 'Googling' Wren's Nest Primary School. There is a link to home learning. Please see the example above. We will be in contact with you via ParentHub as well as the School Website with regular updates. **PLEASE check these regularly to stay informed. If you need any additional support or require any further information, please contact us.**

If your child is entitled to Free School Meals (not the Universal Free School Meal programme for Years Reception to Year 2), a member of the Admin Team will be in touch regarding provision for the period of time that school is closed.

Take care of each other. We are still in very challenging circumstances, but we will get this.

Love,

Mrs Parkes x

## **FOR PARENTS OF CLOSE CONTACTS OF COVID 19 at Wren's Nest**

### **Advice for Child to Self-Isolate for 10 Days**

#### **What to do if your child develops symptoms of COVID 19 – in line with the most recent guidance – 11.12.2020**

If your child develops symptoms of COVID-19, they should remain at home for at least 10 days from the date when their symptoms appeared. Anyone with symptoms will be eligible for testing and this can be arranged via <https://www.nhs.uk/ask-for-a-coronavirus-test> or by calling 119 .

People who do not have symptoms should not request a test unless this has been specifically requested by Public Health England or the local authority.

All other household members who remain well must stay at home and not leave the house for 10 days. This includes anyone in your 'Support Bubble'.

The 10-day period starts from the day when the first person in the house became ill.

Household members should not go to work, school or public areas and exercise should be taken within the home. If you require help with buying groceries, other shopping or picking up medication, or walking a dog, you should ask friends or family. Alternatively, you can order your shopping online and medication by phone or online.

Household members staying at home for 10 days will greatly reduce the overall amount of infection the household could pass on to others in the community

If you are able can, move any vulnerable individuals (such as the elderly and those with underlying health conditions) out of your home, to stay with friends or family for the duration of the home isolation period

Please see the link to the PHE 'Stay at Home' Guidance:

<https://www.gov.uk/government/publications/covid-19-stay-at-home-guidance/stay-at-home-guidance-for-households-with-possible-coronavirus-covid-19-infection>

#### **Symptoms of COVID 19**

The most common symptoms of coronavirus (COVID-19) are recent onset of:

- new continuous cough and/or
- high temperature and/or
- a loss of, or change in, normal sense of taste or smell (anosmia)

#### **For most people, coronavirus (COVID-19) will be a mild illness.**

If your child does develop symptoms, you can seek advice from the nhs.uk website at <https://www.nhs.uk/conditions/coronavirus-covid-19/check-if-you-have-coronavirus-symptoms/>. If you are concerned about your child's symptoms, or they are worsening you can seek advice from NHS 111 at <https://111.nhs.uk/> or by phoning 111.

#### **How to stop COVID-19 spreading**

There are things you can do to help reduce the risk of you and anyone you live with getting ill with COVID-19

*Do*

- wash your hands with soap and water often – do this for at least 20 seconds
- use hand sanitiser gel if soap and water are not available
- wash your hands as soon as you get home
- cover your mouth and nose with a tissue or your sleeve (not your hands) when you cough or sneeze
- put used tissues in the bin immediately and wash your hands afterwards

**Further Information** Further information is available at <https://www.nhs.uk/conditions/coronavirus-covid-19/>
