

What do you enjoy most  
about your  
Geography Lessons?

Ndala - Y5

I like it most when we look  
at all the different types of  
maps.

We've looked at maps like  
the ones we get on a phone  
and paper ones too.

We even looked at a map  
with a compass on it.

Veronica - Y3

I enjoy the fact we  
don't shy away from  
more complex topics.

We are talking  
about Brexit and the  
EU and how our  
country has changed.

We are allowed to  
share our opinions  
too which I like. We  
have discussions.

Describe your favourite  
Geography Lesson?

Ndala - Y5

My favourite Geography lesson was when we had the challenge to walk around school and made a map of it for visitors.

It was really good.

Veronica - Y3

We had a debate lesson - one side said, 'Stay in the EU' And the other said, 'we should leave.'

We got to share our own opinions and debated like politicians. Miss Whitehouse said I could be a politician when I am older. I was pretty good at it.

How do you think Geography lessons could be improved at Wren's Nest Primary School?

Ndala - Y5

We could include using maps to find out where we could go, like making directions.

We could plan to go on a school trip somewhere and make a map of how we could get there and the journey to follow.

Veronica - Y3

I think we should learn about lesser known countries in the continent we are looking at.

I know you can't change the curriculum much, but each year group could learn about a different, lesser known country so we learn more about the wider world.
