

Wren's Nest Primary School - Swimming Statement

All schools are required to publish the following information for their current Year 6 cohort:

<i>Meeting national curriculum requirements for swimming and water safety:</i>	% of Y6 children
What percentage of your current Year 6 cohort swim competently, confidently and proficiently over a distance of at least 25 metres?	78%
What percentage of your current Year 6 cohort use a range of strokes effectively [for example, front crawl, backstroke and breaststroke]?	70%
What percentage of your current Year 6 cohort perform safe self-rescue in different water-based situations?	76%
Schools can choose to use the Primary PE and Sport Premium to provide additional provision for swimming but this must be for activity over and above the national curriculum requirements. Have you used it in this way?	No

Wren's Nest Primary School is situated in the heart of the Black Country on a council estate which has local ponds and the canal in the immediate vicinity. The school has 67% children eligible for the Pupil Premium.

After much consideration the Governing Body have taken the decision to invest our resources - both time and budget, in teaching Year 2 to swim. Our rationale is based on the fact that the vast majority of our children do not attend private swimming lessons and cannot yet swim by the time they are seven. This year at the start of Year 2 none of the cohort were able to swim. Many children had a genuine fear of the water and children did not know how to get themselves out of the water onto the poolside.

Governors felt that the top priority for Wren's Nest was to teach all children to swim a short distance and practice techniques for climbing out of a steep sided pool. Both these skills would be lifesaving skills if a child should fall into either the local ponds or canal.

The cost of taking children swimming during Year 2 is £4,570. This is supported by parental contributions of £780 but there is a net cost of £3,790. This money is taken out of the school main budget and not the Sports Premium budget.

Governors felt that investing in children's safety and life skills was of higher importance than teaching the children a range of strokes and competencies in KS2. Although doing this as well would be beneficial and enjoyable for the children the school is not in a financial position to be able to support swimming in KS1 and KS2.
