

*'Unlock Potential and Reach for the Stars'*

## Our Aims for Wren's Nest Primary School

We aim to provide an excellent education for all our children so that they achieve the highest academic standards possible and make excellent progress throughout their primary education.

We want each child to develop self-respect and to respect the opinions, feelings and possessions of others, enabling them to feel confident and valued as part of our school community.

We want children to develop respect and tolerance for others within the community in which they live and the wider world, helping them to understand their place, belong and contribute positively to society.

Children will develop an active interest in, and motivation for, their own learning, fostering independence, curiosity and a love of learning.

Our school will be a safe, secure and inspiring place that children and staff value, creating the conditions in which everyone can thrive and which underpin our commitment to education.

We aim to create a happy, open and welcoming environment for the whole community of Wren's Nest Primary School, building positive relationships with all who live and work in the locality and ensuring a strong sense of belonging.

We will encourage the involvement of parents in school life to further their child's education and their own. Wren's Nest Primary School is a community of learning for all ages.

At Wren's Nest, we want our children to love their learning and grow into capable young people who achieve well, belong confidently and thrive academically, socially and emotionally, equipping them with the knowledge, skills and competencies needed for future learning and employment.

*We believe that these aims will enable the potential of each child to be developed, both academically and socially, and that each pupil will develop high levels of self-belief and aspiration.*
